

[illegible]

A diagram of a cantilever beam of length 100 units. A point load of 5 units is applied at the free end. The beam is fixed at the right end and extends to the left.

A 3D perspective view of a stepped block. The block has a base of 10 units and a height of 4 units. The top surface is divided into a 6x4 area on the left and a 4x4 area on the right. There are four holes, each 1 unit in diameter, located at the following coordinates (x, y, z): (6, 2, 4), (7, 2, 4), (8, 3, 4), and (9, 3, 4). The block is shown in a light gray color with black outlines.

A right-angled triangle is shown with a horizontal base of length 100 and a vertical height of 45. The angle between the base and the hypotenuse is labeled 45° .
